

Regulatory Review Worksheet

A structured record of jurisdictional, facility, contractual, and project-specific review items

PLANNING USE ONLY: This checklist is not legal, engineering, industrial-hygiene, fire-code, or regulatory advice. Requirements vary by equipment, wavelength, substrate, coating or contaminant, location, occupancy, contract, facility rules, and work environment. Confirm project-specific requirements with the employer, facility, owner, manufacturer, laser safety professional, environmental professional, insurer, and appropriate authorities before work begins.

Project / facility _____	Street address _____
City / county / state _____	Facility type / occupancy _____
Review lead _____	Target work date _____

1. Project facts that may affect applicability

- ☐ Laser system, class, wavelength, beam delivery, and manufacturer controls documented.
- ☐ Substrate and coating / contaminant identified; unknowns and sampling needs recorded.
- ☐ Building age, use, occupancy, child-occupied status, and historic status reviewed.
- ☐ Indoor / outdoor work, emissions, residue, ventilation, containment, and nearby receptors reviewed.
- ☐ Work at height, confined space, hot-work / fire review, electrical connection, and shutdown needs reviewed.
- ☐ Waste generator, waste characterization, transporter, receiving facility, and recordkeeping responsibilities assigned.

2. Federal review record

OSHA workplace hazard assessment and PPE - 29 CFR 1910.132	☐ Applies ☐ N/A ☐ Open	_____
Eye / face and other applicable PPE requirements	☐ Applies ☐ N/A ☐ Open	_____
Respiratory protection - 29 CFR 1910.134, if respirators are required	☐ Applies ☐ N/A ☐ Open	_____
Laser hazards, manufacturer instructions, and applicable consensus / facility standards	☐ Applies ☐ N/A ☐ Open	_____
EPA RRP - covered paid paint-disturbance work in pre-1978 housing / child-occupied facilities	☐ Applies ☐ N/A ☐ Open	_____
RCRA waste determination - 40 CFR 262.11 and generator requirements	☐ Applies ☐ N/A ☐ Open	_____
Other federal owner / agency / contract requirements	☐ Applies ☐ N/A ☐ Open	_____

3. State and local review record

New Jersey	NJDEP waste classification / generator requirements; air or emissions questions; state-plan OSHA / employer rules as applicable; local fire, construction, occupancy, preservation, and environmental requirements.	☐ Reviewed _____
New York	NYSDEC hazardous-waste Part 370 series and generator category; state / local labor and safety requirements; local fire, construction, occupancy, preservation, and environmental requirements.	☐ Reviewed _____
Pennsylvania	PADEP hazardous-waste generator, transporter, manifest, residual-waste, and reporting questions; local fire, construction, occupancy, preservation, and environmental requirements.	☐ Reviewed _____
County / municipality / authority	Permits, fire department / AHJ review, occupancy restrictions, historic-preservation approvals, street / traffic controls, noise, hours, and site-specific requirements.	☐ Reviewed _____

4. Facility, owner, insurer, and contract requirements

- [] Facility contractor manual, orientation, training, badging, insurance, and documentation reviewed.
- [] Owner specifications, general-contractor requirements, scope language, and acceptance criteria reviewed.
- [] Facility EHS, fire, emergency, permit-to-work, lockout / tagout, confined-space, elevated-work, and housekeeping rules reviewed as applicable.
- [] Insurer, lender, landlord, tenant, preservation, or agency approvals identified.
- [] Responsibility for changing conditions, stop-work decisions, incident reporting, and final closeout documented.

5. Open-item register

Item / question	Owner	Due date	Resolution / reference
